

An important note about using this prompt sheet:

When using this sheet, be aware that it is meant for occasional use prompting one or two facts. When children have it, it is essential that you check children are not falling into using it by default to look at every fact. If you have followed the programme thoroughly from the start children will know almost all of the facts.

If you see children over-copying from this grid, remind them to say the start of the fact out loud first (e.g. “Six threes are...” and see if the answer comes out of their mouths – it often does even if children don’t *think* they know the fact).

If you have children who really do have gaps in the facts they know, look at the Stage 5 targeted support section for an approach to teach them the missing facts.

$2 \times 2 = 4$										
$3 \times 2 = 6$	$3 \times 3 = 9$									
$4 \times 2 = 8$	$4 \times 3 = 12$	$4 \times 4 = 16$								
$5 \times 2 = 10$	$5 \times 3 = 15$	$5 \times 4 = 20$	$5 \times 5 = 25$							
$6 \times 2 = 12$	$6 \times 3 = 18$	$6 \times 4 = 24$	$6 \times 5 = 30$	$6 \times 6 = 36$						
$7 \times 2 = 14$	$7 \times 3 = 21$	$7 \times 4 = 28$	$7 \times 5 = 35$	$7 \times 6 = 42$	$7 \times 7 = 49$					
$8 \times 2 = 16$	$8 \times 3 = 24$	$8 \times 4 = 32$	$8 \times 5 = 40$	$8 \times 6 = 48$	$8 \times 7 = 56$	$8 \times 8 = 64$				
$9 \times 2 = 18$	$9 \times 3 = 27$	$9 \times 4 = 36$	$9 \times 5 = 45$	$9 \times 6 = 54$	$9 \times 7 = 63$	$9 \times 8 = 72$	$9 \times 9 = 81$			
$10 \times 2 = 20$	$10 \times 3 = 30$	$10 \times 4 = 40$	$10 \times 5 = 50$	$10 \times 6 = 60$	$10 \times 7 = 70$	$10 \times 8 = 80$	$10 \times 9 = 90$	$10 \times 10 = 100$		
$11 \times 2 = 22$	$11 \times 3 = 33$	$11 \times 4 = 44$	$11 \times 5 = 55$	$11 \times 6 = 66$	$11 \times 7 = 77$	$11 \times 8 = 88$	$11 \times 9 = 99$	$11 \times 10 = 110$	$11 \times 11 = 121$	
$12 \times 2 = 24$	$12 \times 3 = 36$	$12 \times 4 = 48$	$12 \times 5 = 60$	$12 \times 6 = 72$	$12 \times 7 = 84$	$12 \times 8 = 96$	$12 \times 9 = 108$	$12 \times 10 = 120$	$12 \times 11 = 132$	$12 \times 12 = 144$

When you are using this grid, make sure that you try saying the fact first to see if you can remember it before looking at this grid.

If you have looked at this grid to find a fact, you then need to practice saying it to yourself to help yourself remember it for another time.
