St Anthony's Primary Learning Partnership

SCHOOL DIRECT at St Anthony's

St Anthony's Primary Learning Partnership ensures outstanding education is provided to children from the four compass points of Leeds and beyond. Our thriving partnership, containing a number of outstanding schools, is distinctive in both its geography and its diversity. We offer a unique opportunity for tomorrow's teachers to train across a range of contrasting catchment areas, gaining first hand experience of working within different demographics. Such a rich variety of schools exposes trainees to important areas, such as children with English as an additional language, disadvantaged children and gifted and talented pupils, whilst receiving first class guidance and support from experienced mentors.
